Please remember that you will get more results from your child if you parent positively. Some tips to remember;

1. Create a positive foundation. Focus on their strengths instead of what they are doing wrong.
2. Avoid competitive parenting. It undermines the effort to create an environment in which children can feel success.
3. Children will not be motivated from being convinced that others find them second-rate simply because they make the normal mistakes of growing up.
4. Let them take ownership for their successes and mistakes.
5. Remain positive!

Please set three new parenting goals for yourselves.

Thank you,

Camilla Hartman
